For the full tutorial please visit - <https://theartisanduck.com/2020/10/05/halloween-pumpkin-brick-stitch-tutorial/>

A few basics –

- Follow the pattern starting at the bottom of the pumpkin and work your way up line by line.
- On each line where the number of beads is greater than the previous line always start by picking up 2 beads (that will increase the line width).
- On the lines where the number of beads is less than the previous line start by picking up 1 bead.
