

Brick Stitch Ice Cream Cone Pattern

by The Artisan Duck

You can find the full tutorial here - <https://theartisanduck.com/2021/05/30/easy-brick-stitch-ice-cream-cone-tutorial/>

A few tips to get you started –

Use a long length of thread as you will use more than you think.

Begin at the bottom of the ice cream cone on the second row up and the add the single bead after.

Zigzag your way up the pattern – the end of one row will have the beginning of the next row up directly above it.

If you need help on how to add the loop to make into earrings please refer to the full tutorial.

Have fun and happy beading!
